SUMMARY

Proactive Backend Developer with comprehensive experience in API development and backend optimization. Seeking a Backend Developer position to enhance development efficiency through skills in Python, Django, Nodejs and database.

EXPERIENCE

Backend Developer

CodeNet Softwares Pvt Ltd   **October 2023 – December 2023, kalyani**

· Developed 10+ RESTful APIs in Node.js, reducing backend load time by 30%.
· Collaborated with 3+ frontend dev's to deliver 2 major projects within 6 weeks.
· Resolved high-priority bugs, reducing backend error rates by 25% and improving code stability.
· Participated in 10+ Agile sprints, consistently delivering features 3 days ahead of schedule.

PROJECT

Excel Analytics Platform

Zidio Development · excel-analytics-platform.netlify.app/login · April 2025 – May 2025
· Engineered an Excel analytics platform that automated data processing, provided real-time insights.
· Improved decision-making efficiency by 40% for users across multiple departments.
· Built a platform for analyzing Excel data with role-based access control and dashboards.
· Technology Stack used : React, Nodejs, Express, Bootstrap 5, Mongodb, Machine Learning, Multer.

Bank Management System

Codveda · bank-management-system-epu1.onrender.com/ · February 2025 – April 2025
· Implemented a comprehensive bank management system that streamlined operations across 50 branches.
· Implemented secure multi-level hierarchy for Admin, Employees, and Customers.
· Technology Stack used : Python 3.13, Django 5.1.7, Bootstrap 5, SQLite.

Handwritten Text Extractor

ISKCON Kalyani · handwritten-data-extractor.onrender.com/ · January 2024 – February 2025
· Engineered a handwritten text extractor utilizing machine learning algorithms, achieving an 85% accuracy rate in text recognition, and reducing manual data entry time by 50%.
· OCR web application to extract text from images and PDFs while preserving formatting.
· Technology Stack used : Django(Python), Tesseract OCR, pdf2image, HTML5, CSS5, JavaScript.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Indian Institute of Information Technology Kalyani · Kalyani, West Bengal · 2025 · 8
· Certified in Google Cloud Professional Cloud Architect
· Volunteer mentor at StatusCode1, helping 20+ students improve their Python coding skills

SKILLS

· **Programming Languages**: Python, JavaScript, C
· **Web Frameworks**: Django, FastAPI, Node.js, Express.js
· **Frontend Technologies**: React.js, HTML5, CSS3, Bootstrap 5
· **Databases**: MongoDB, MySQL, PostgreSQL, SQLite
· **Tools & Platforms**: Git, GitHub, REST APIs, JSON, Multer, Tesseract OCR
· **Version Control**: Git, GitHub
· **Machine Learning**: Experience with integrating Machine Learning APIs
